

## DOLLARS AND CENTS GROCERY CEILING PRICES MOVE STEP CLOSER TO RETAIL FOOD COUNTER; THE BASIS FOR SUCH LAID, BUT POSTED PRICES MAY BE 6 MONTHS AWAY

Three New Regulations Issued, Establishing Formula For Figuring Highest Prices Retail and Wholesale Grocers May Charge — Must Be Used by April 30th

By Freeman Fulbright  
(U. S. Staff Correspondent)  
WASHINGTON, Mar. 29 — (INS) — Dollars and cents grocery ceiling prices moved today a step closer to the retail food counter.

The basis for such ceilings—what stabilizers called community pricing—was laid Wednesday but officials cautioned that posted prices still may be six months away.

Price Stabilizer Disalle issued three new regulations establishing a formula for figuring the highest prices retail and wholesale grocers may charge for 60 per cent of the items they sell. The new prices must be used by April 30.

Disalle said: "We'd like very much to take that final community pricing step right now. But because prices of basic agricultural products may change under parity—changes which the law does not permit us to control—wholesale and retail prices will change accordingly."

"This would mean, if we tried community pricing now, that by the time one set of ceilings was figured, handed to the printer, and delivered to the stores for posting, additional changes might make the poster out of date."

However, the price boss promised, when the price picture is more stabilized, "we can take the final step and put posted dollar-and-cent ceilings into effect."

Disalle said the three orders will result in more price rollbacks than increases but the housewife should not expect to find her food bill cut back to pre-Korean levels.

Yesterday's orders do not control the amount a grocer pays for his supplies, only the percentage he may add to those costs as a markup.

Thus prices can continue to advance when the grocer has to pay more. They must be reduced if a grocer pays less for his supplies. Prices will be recalculated every Monday and may vary from store to store because grocers pay different prices for the same goods.

Among major foods in the 38 categories covered by the new orders are canned and frozen fruits and vegetables, butter, packaged cheese, baby foods, cocoa, coffee and tea, breakfast cereals, flour and flour mixes, jams and jellies, lard, mayonnaise and salad dressings.

**MOTORING MANNERS**

Because speed is generally impossible on congested streets, serious auto accidents are not numerous in cities, but there are many minor mishaps, and countless narrow escapes. New York City Traffic Commissioner Lloyd B. Reid reduces the cause of most of them to plain bad manners.

Mr. Reid has made a survey which shows a high percentage of accidents and near-accidents directly traceable to common discourtesy. Seven drivers in 10 failed to signal turns or obey "stop" signs. Blocking intersections, weaving through congested traffic and refusing to give pedestrians the right of way are other major infractions, with 50 per cent of drivers guilty.

What is remarkable about the bad manners of many drivers is that they are a complete reversal of normal habits. Commissioner Reid tells of one of his checkers who saw a driver draw up to the curb, courteously help an elderly woman passenger to the sidewalk and then, racing to a fast start, almost run her down as she crossed in front of his car.

Commissioner Reid is particularly critical of drivers who "plug" busy intersections, "interfering with vehicles trying to cross and forcing pedestrians to desert safety-lanes." He says the tendency for "motorists" to bully persons crossing streets is on the increase.

Most drivers, if they are honest with themselves, will admit that they are habitually guilty of one or more of these violations. The causes for this departure from normal conduct are obscure, and probably include example, haste and the odd arrogance which comes to many when they take control of a powerful piece of machinery.

**NEARLY PERFECTION**

Almost perfection's self scholastically seems Major Lee Van Gossick, and Ohio State University justifiably plumes itself on graduating a 31-year-old veteran of the Air Force with 399 points out of a possible maximum of four points.

In every course of every one of his five years he got "A" save for a single "B" which must have been an exceedingly high one. He receives two degrees, those of Bachelor of Science in aeronautical engineering and of Master of Science. For this officer who became an air cadet in 1941 and flew 90 missions over North Africa, Sicily and Italy, there is a job that welcomes him with open arms when he reports for duty at the Wright-Patterson Air Force Base, Dayton, O.

In all probability Major Gossick would be as successful in life if his rating had 3.9 out of a possible four points instead of 3.99. College marks are not absolutes—though powerful indices—as to relative scholastic ability. Save in fields that involve mathematics, the personality of the examiner may play a part in the posting of questions and, with utmost fairness, in his appraisal of the result. But on any basis Major Gossick's record borders on the phenomenal.

CAMDEN, N. J., Mar. 29 — (INS) — J. Stanley Bower, 49, Bensalem Twp., Bucks County, on Tuesday was ordered held in \$500 bail for the Federal Grand Jury on charges of assault and battery on a newspaper photographer.

U. S. Commissioner Albert B. Scheffler ordered Bower held in connection with charges brought by Elwood Smith.

The action grew out of an alleged attack by Bower on Smith when the photographer attempted to take a picture of Bower and his wife in the corridor of the Federal Building in Camden yesterday.

Mrs. Bower had pleaded guilty to five of six indictments in a "surplus car" racket. Bower, who waived a hearing, was permitted to sign his own bail bond.

**Philadelphia and The Tariff**

**Continued from Page One**

plus duty. Some of them broadly intimate that the American equivalent of these skirts would cost at least \$25 apiece.

Assuming this to be the fact, which it quite likely is, then the Bulletin seems to be wasting its tears over the distress of American women who are thus able to buy \$25 skirts for \$12.75 — but can't get them for \$10.

Now get to the \$64 question. Why is it that a skirt which, made in America, would sell for \$25, can be manufactured by the British to sell for \$12.75, tariff duty included?

Most of the difference in cost has to do with the standards of living of the workman in England, as compared with his American counterpart. The Briton is working on a wage which is only a fraction as much as that of the American. The items of daily life which are considered necessities by the American—an automobile, all sorts of electrical equipment, etc. — are rare luxuries among the working classes in England.

And here's the point. Every skirt sold by mail out of the production of the British mills is one less sold from the output of American labor.

Carrying the Bulletin argument to its logical extreme, we would buy this country's skirts out of the cheaper British market, and let our own factories shut down—and our American garment-workers go on relief.

Does that begin to bring out the amazing position which the Bulletin has taken in this matter?

Philadelphia is a major wool center. The products run into the millions in value, the employees far into the thousands. Whole square miles are occupied by the various types of woolen mills and associated industries, as a ride through Northeast Philadelphia will quickly verify.

The Bulletin philosophy would put all these out of business—give the market to the British—and do so, not because the British are more efficient in this line of production (they are not) but because the British worker is willing to work for less money than the American, is content with lower living standards, and is no longer in a position to do anything about it, under socialist semidictatorship, even if he is discontented with his "austerity."

But the matter goes still one step further in its disturbing implications.

The difference in living standards between American and British workmen does not account for the whole difference in price between the \$25 American skirt and the \$10 British counterpart.

An additional reason why the American skirt is so costly is that, concealed in its price, are the extravagant American taxes, which are high among other reasons because so many American dollars have been diverted to helping finance the British experiment in socialism — direct loans, the Marshall Plan, ECA, etc.

American prices are automatically driven up by high taxes, a principal share of the revenue of which is turned over to foreign competitors to help subsidize lower price on commodities sent to this country to compete with American production!

Moreover, the price-differential due to low foreign standards of living, and no longer equalized by protective tariffs, is not a phenomenon to be found solely in the field of stylish skirts for women. It covers a list as long as your arm. Glassware, shoes, dishes, watches—these are but a few of an extensive and growing number of articles where the American government has put "American producers (and working-people) behind the eightball."

Sometime the day of reckoning will arrive!

It was suggested that Mrs. Henry M. Taggart, blood donor chairman, arrange to have a blood donor day in Newtown during May.

The annual meeting of Lower Bucks Branch, of which Mrs. David L. Watson, Newtown is chairman, will be held in the Temperance House, April 26th at 12:30 p. m.

A first aid class will commence this evening in Council Rock high school auditorium, which will run for 11 weeks, each Thursday evening from 7:30 - 9:30, with Miss Mary Yerkes, director of the health and physical education department of the school, teaching.

Mrs. J. C. Usilton was appointed to represent Newtown district at the home of Mrs. Stephen Vandegrift, April 5th at three p. m., at which time a speaker will talk on cancer research.

## Inform League of The Bucks School Set-Up

NEWTOWN, Mar. 29—Dr. Charles Boehm, director of the department of education for Bucks County, was guest speaker before the Newtown League of Women Voters Tuesday afternoon in St. Luke's P. E. parish house.

Dr. Boehm gave an instructive talk on the set-up of Bucks County School boards and teachers, stating that out of the 54 boards, there are now 11 consolidated schools.

He stated Bucks County School boards are out in front in the United States, and very far-seeing in selection and purchase of sites for future school buildings.

Twenty acres is the minimum for an elementary school, and he cited the fact that Rohm & Haas Co. has just given to Bristol township 23 acres for a new school building.

"Bucks County is outstanding for its colonial heritage, but the pattern of the schools built in the last five years has been one story buildings, finished with acoustical tile ceilings, which is a remarkable innovation, and so much easier on the teachers."

Mrs. Robert Biddle, 3rd, president of the league, conducted the business meeting, at which time election of officers took place. The slate presented by Mrs. John Chambers, nominating committee chairman, was accepted. Mrs. Eugene Robertson was elected first vice-president; Mrs. Robert Titlow, 2nd vice-president; Miss Bertha Ernest, recording secretary; Mrs. Helen Randle, corresponding secretary; Mrs. Stanley Blinn, treasurer; Mrs. Millard P. Smalley and Mrs. Marian Elwell, nominating committeemen.

Mrs. William Stuckert and Mrs. H. Griffen Miller had audited the books of the treasurer, and the annual report was given. Several changes in the by-laws were adopted.

Mrs. Miller spoke of Mrs. Abby Rice, mother of Mrs. William Stuckert, who founded the League of Women Voters in Newtown in 1913. Mrs. Miller gave great tribute to the younger leaders of the league today. On April 17th, Cassimir Sklenewicz, formerly head of the Federal Reserve Bank of Philadelphia, will address a joint meeting of the League and the Newtown New Century Club in the club house, subject being "Inflation."

## LANGHORNE RESIDENT HAS UNUSUAL HOBBY

Collects Samples of Water From Various States and Countries

### STARTED 10 YRS. AGO

LANGHORNE, Mar. 29 — A resident of Langhorne has a very unusual hobby—that of collecting water samples from many parts of the United States and some foreign countries.

About 10 years ago Wilbur C. Burbage was the engineer and superintendent in charge of Cowan's water works, Tenn.

A Texas tourist walked into the water works of the small town of Cowan, Tenn., and requested the opportunity to replenish a water bag for drinking purposes. Something prompted Burbage to ask for the rest of the Texas water. Once bottled, this bit of water turned out to be the first specimen of many collected since then from all parts of the world. Small bottles of water have been dipped from streams, rivers, and lakes at historical points of interest during vacation periods.

Samples of water have been obtained from the Atlantic ocean at Asbury Park, N. J., to and including the Pacific Ocean. Also from such places as the Delaware River at Washington Crossing; the Susquehanna River at Harrisburg; each of the Great Lakes; from the cataract at Niagara Falls; and from such great rivers as the Mississippi, Ohio and Tennessee.

With two sons, Charles and James, in the army and stationed in Europe, samples have begun to arrive from points of interest in France, Germany, and England.

Although his wife knows a good deal about water—having been his secretary-treasurer for five years in Tennessee—Burbage sadly comments that she does not share his enthusiasm for collecting water.

Mr. Burbage is engineer in charge of Langhorne water company, which post he has held for the last three years.

Attendance awards of \$2 each went to Mrs. Anita Johnson's and Miss Lora Marcolina's rooms.

The nominating committee consists of Mrs. Ruth Gindhart, Mrs. Mary Devine, Mrs. A. C. Smith. The next executive committee meeting is to take place in Mrs. Devine's class room on April 29th at eight p. m.

# SHEDS DIRT... STAYS WHITE FOR YEARS!

## DU PONT HOUSE PAINT

*cleans itself!*

For lasting whiteness and matchless brightness make certain your painter uses Du Pont House Paint. A unique blend of pigments and oils, it actually sheds dust and grime during every heavy rain! It cleans itself! Normally, this "Self-cleaning" process starts within a few months. However, excessive soot or heavy shade, or stains from metal surfaces such as copper screening, may interfere with or delay this process.

So beautify your home with the paint that's made right to stay bright. Specify "Self-cleaning" Du Pont House Paint in Outside White or popular tints. Ask your Du Pont dealer or painter to tell you how the "Self-cleaning" process works in your area. And if the surface is bare wood or badly weathered paint, assure maximum adhesion of the finish coat by starting with a coat of Du Pont House Paint Primer.

Gas savings—up to \$98

\$10 to \$50 less maintenance

The Henry J has been economy-engineered! Its Supersonic Engine is simple to adjust. Its body has fewer, less expensive parts, with everything easy to get at! Example: Rear fenders, not welded on, unbolt in minutes for quick fender work.

Maintenance savings—up to \$50

save \$10 to \$60 in fees

Your savings will vary from state to state; but when you add up your Federal, local and state taxes, interest charges, insurance costs and license fees, you'll find there's considerably less to pay the Henry J way!

First Anniversary  
Marked by Banquet

Marking its first anniversary, the Woman's Society of Christian Service of Neshamony Methodist Church, Hulmeville, held a banquet at Landwehr's, near Scudder's Falls, N. J., Tuesday evening.

Members and guests were received by officers of the society, then escorted to the Pine room, where covers were placed for approximately 45. Miss Marie Hanson, vice president, served as toastmistress.

The Rev. Edward W. Stiess, pastor of the church, asked the blessing, and a formal welcome was extended by the president of the W.S.C.S., Miss Elma E. Haefner. To the latter an orchid corsage was presented by the toastmistress on behalf of the society.

Introduction was made of the following guests: Miss Mary Jane Claus, president of the Youth Fellowship; Mrs. Samuel K. Faust, president of the adult choir; C. Wesley Haefner, Sunday School superintendent; George Fetters, lay leader; Samuel J. Illick, former lay leader; the Rev. Mr. Stiess and Mrs. Stiess. Several of the guests responded to the introductions, offering congratulations to the society on its anniversary, and expressing appreciation upon being invited to the function. Also presented were other members of the banquet committee, in addition to Miss Hanson, these being Mrs. Frank Harper, Miss Louise Doan, and Mrs. G. A. Japchen. Officers introduced were Miss Grace H. Illick, treasurer; and Mrs. John Cerin, promotion secretary.

The main entertainment feature was a humorous and interesting presentation, titled "Words," by Warren F. Bietich, of Yardley, Mr. Bietich, who is a member of two school boards, also active in Bucks Co. Boy Scout work, used an easel pad with crayon illustrations as he dealt in most interesting manner with derivation of certain words; went into synonyms, homonyms, and colloquialisms; and showed how punctuation can make a world of difference in a sentence. There was group singing, with Mrs. Harold Daseburg at the

piano. Other musical numbers were as follows: Vocal solo with auto-harp accompaniment, "Forever and Ever," and "Moonlight and Roses," Miss Adeline E. Reetz; piano solo, "Over the Waves," Miss Marian Sutton; vocal quartet, "It's a Grand Night for Singing," "Kentucky Babe," "Neopolitan Nights," and "Harbor Lights," Mrs. Daseburg, the Misses Ruth Shapcott, Louise Doan and Adeline E. Reetz, with Miss Hanson at the piano. There was a brief history of the society's first year of endeavor, presented by the president.

Birthday anniversaries of Mrs. C. Wesley Haefner and Donald LeC. Haefner, were acknowledged; also the wedding anniversary of Mrs. Mark Shapcott.

The menu consisted of: Fresh fruit cup, vegetable salad, roast capon with dressing, parsley potatoes, green beans, relishes, hot biscuits, butter, ice cream, cookies, coffee, salted nuts, mints. A variety of small favors were at each place.
